EXPERIENCE

Executive Chairman

Apr 2012 - Present

FAAC Group

In a unique and multi-faceted industrial context, I am responsible for an organisation structured on several levels. In this scenario, I have the opportunity to hold the positions of Trustee Partner, Shareholding Manager and CEO with executive responsibilities.

The FAAC Group stands out for its excellence, in Italy and worldwide, both for its history and its ability to anticipate change, investing in innovation and sustainable development. From a human point of view, every day I see the strong sense of belonging that distinguishes the FAAC team.

Growth. It is not just a noun, but a key word, a dynamic element in our vision of continuous improvement, inherent in FAAC's DNA. Growth of people and for people, growth of prospects and of the business.

Among ordinary and extraordinary activities, to ensure profitable growth, I am personally involved in M&A.

Trust FAAC

Ethics, sustainability and development are the three main assets that support the decisions and activities aimed at ensuring the stability of FAAC and its operations in a highly competitive market.

I have the honour to hold and share this position which is essentially built on a mix of skills and trust of the substantial ownership, which has chosen us to ensure that FAAC is managed according to entrepreneurial criteria.

Board Member

Fondazione Policlinico Sant'Orsola

A Foundation based on participation that turns into co-design: this is the Fondazione Policlinico Sant'Orsola.

An idea shared by 9 economic entities (8 companies and a credit institution), to set up a non-profit organisation that is an ally of a public hospital of excellence and that is in charge of projects deriving from sharing and enhancement of the real needs of people at the Sant'Orsola hospital.

The 9 local organisations that were the first to believe in and support this good cause guarantee that all donations will be used to support projects that can be realised thanks to the generosity of citizens, associations, companies and foundations.

As a Foundation, we want the Policlinico to be ever more welcoming and the quality of its care always at the forefront for the good of each and every one of us, for the good of the entire community.

ABOUT

As Chairman and CEO of a unique and multi-faceted industrial reality, such as the FAAC Group, I am responsible for an international organisation, structured on several levels and characterised by a strong sense of belonging.

In addition, as a Board member of some bodies, foundations and companies in Italy, I have the honour of participating in activities and projects aimed at developing the economy, people's growth, and the sustainability of human realities of great value. In fact, I have the opportunity to see up close and contribute to various excellences that have chosen to invest in innovation and people's growth, in Italy and worldwide.

Trust and growth are two pillars, two distinctive elements of the contexts in which I have chosen to commit personally and which deal with concrete projects, the result of sharing and enhancing real needs. New challenges and strategic involvement at various levels still give me the opportunity to hone my skills in scenario analysis and the ability to assess situations, elements and people, in a process of

Ability to analyse scenarios, assess situations, elements and people.

Never stop at the first impression, but go into detail to fully understand each element. Knowing to do, how to observe, know and listen to those in front of me and the context in which I move.

Working as a lawyer for over twenty years has taught me all this and still helps me to read between the lines, assessing things from multiple perspectives and constantly checking every step.
